How to Download NEMA Standards for FREE

On your browser, go to http://www.nema.org

On the second line down from the top of the **NEMA Home Page**,

Point to " STANDARDS " (white letters on gray background)

When the "drop-down" menu appears, click on " Find Standards "

In the box below "Enter Search Terms" type "**C37**"

On the next line down, below "Search By": **click on the circle** to the left of "**Document Number**"
> **Don't click on the Text** "Document Number ", because that brings up a new screen to tell you what "Document Number" means.

Next edit the "Standard Dates" , if you wish, or just use the "default" dates already there:
From: _____
To: _____

Finally, "click" on the Green << SEARCH >> button.

As you can see from the information on the screen, you can order a paper copy of a standard, for a fee, or

(in most cases) you can download an electronic (.pdf) copy for FREE!

FYI – I just thought you'd like to know. This is a "work-in-progress" and not all NEMA standards have been put onto the web site yet.
